

PC800

Automatic 12V 8A 6 Stage Battery Charger

Perfect all-rounder for small to large batteries found in recreational vehicles, passenger vehicles and 4WDs.

FEATURES

Adjustable Output

Suitable for a wide range of different size batteries

Calcium Mode

Adjusts the charging profile to suit calcium batteries

Rejuvenation Mode

Revitalises tired batteries, increasing battery life and performance*

Side Mounting Wings

Optional mounting wings for permanent installation

Safer Charging

Spark free and polarity protected

SPECIFICATIONS

PRODUCT DETAILS		L.E.D CHARGE INDICATION			
PART NO.	PC800	• BLUE LIGHT ON	Bulk charging		
TYPE	6 stage	• GREEN LIGHT ON	Fully charged and maintaining, no need to turn off		
INPUT	240VAC, 50Hz, 240W	• AMBER LIGHT ON	Rejuvenation process occurring		
OUTPUT	12V	• RED LIGHT ON	Indicates faulty battery		
OUTPUT CURRENT	2, 4, 8A	BATTERY CHARGE TIMES			
MINIMUM START VOLTAGE	3.0V	PC800	VOLTAGE	BATTERY SIZE	CHARGE TIME
BACK DRAIN	1mA	AUTOMOTIVE	12V	80–1000CCA	7–24 hrs
APPROVALS	Electrical Safety, EMC	MARINE	12V	110–1300MCA	7–24 hrs
		DEEP CYCLE	12V	14–160Ah	7–24 hrs
