

## Technical Information

The Predator ED63900 is a true Deep Cycle Absorbent Glass Mat (AGM) battery.

The grids and active material are manufactured using 99.99% virgin lead to ensure maximum performance & durability. A unique double separator configuration delivers high energy density and excellent vibration resistance.

The valve regulated, non-spillable design delivers outstanding cycle life and a low self discharge rate for longer shelf life.

This battery can be used in all Industrial and Heavy Duty applications where a 6 Volt battery is required.

## Features & Benefits

- True Deep Cycle AGM technology
- Heavy Duty, Non-Spillable Design
- Double Separator Construction
- High Energy Density & Cycle Life
- Low Self Discharge
